

## NO ONE SHOULD HAVE TO FIGHT CANCER ALONE.

In 2005, Amgen created *Breakaway from Cancer*<sup>®</sup> as a complementary component to its title sponsorship of the Amgen Tour of California to increase awareness of the important resources available to cancer patients from prevention to education and support to financial assistance and survivorship.

The *Breakaway from Cancer* nonprofit partners play leading roles in multiple aspects of cancer care, complementing the services provided by a patient's team of healthcare professionals. Services include links to information on cancer prevention, research and clinical trials, help with financial issues and access to care.

Amgen Oncology is committed to working closely with those touched by cancer to provide the best possible outcome for people fighting this disease. That is why Amgen supports the valuable programs and services provided by the *Breakaway from Cancer* partners.

Visit [www.breakawayfromcancer.com](http://www.breakawayfromcancer.com) to learn more.

**Prevent Cancer Foundation** is a national organization focused on educating the public about how to prevent cancer, as well as the importance of screening and early detection.

Uniting The Wellness Community and Gilda's Club Worldwide, **Cancer Support Community** is an international, nonprofit organization dedicated to providing support, education and hope to people affected by cancer.

**Patient Advocate Foundation** is a national nonprofit organization that seeks to safeguard patients through effective mediation assuring access to care, maintenance of employment and preservation of their financial stability relative to their diagnosis of life threatening or debilitating diseases.

The oldest survivor-led advocacy organization in the country, **National Coalition for Cancer Survivorship** advocates for quality cancer care for all Americans and provides tools that empower people affected by cancer to advocate for themselves.
